

## Romiley Primary School Nursery

Welcome back after the Easter holidays. We hope that you had a lovely time.

What a busy half term we had ! Filled with lots of experiences and new learning opportunities.

Parents Evening went well, with a 100% attendance. Thank you for all your kind and encouraging feedback, without your continued support we wouldn't be as effective.

On Tuesday 28th February, we celebrated Shrove Tuesday. We made and ate our pancakes. " They are tasty!" said Elif.

World Book Day was celebrated on 2nd March, where the children shared their favourite books.

We all dressed up. There were some super costumes and we held our own competition with one of our favourite characters "The Gruffalo". The two competition winners were Holly Scott from our Morning Nursery session and Max Kiernan Harding from the Afternoon Nursery session.

Well done to you both ! We hope you enjoyed your prize.

Also, a big thank you to the kind parents who came into Nursery to share stories with the children.

We then had Mother's Day. The children went shopping for a surprise gift from the Mother's Day stall, organised by FRPS. We made our own gifts and cards and tried very hard to do our best handwriting.

On Friday 24th March, we celebrated Red Nose Day. Everyone got dressed up for the occasion and we had a great day and raised a lot of money which will help not only our country but also the world's poorest communities.

We then had the lead up to Easter which is always a busy time.

This half term we will be looking at mini beasts and will continue to look at growth. We will also be following the interests of the children following your feedback.

We were learning about the meaning behind Easter. We worked hard to get ready by making cards, baking - Easter nests, gifts and singing lots of Easter songs.

A little reminder that Nursery contribution this half term is £6.00. Thank you.

## How can I help my child?

Our vets role play

In Nursery, we see all children as individuals. We identify the progress and future learning needs of your child through observations. What we aim to do is cultivate a child's natural desire for discovery and learning and to encourage them to be confident, independent and inquisitive. We will also continue to focus on other personal and social, physical, early language and maths skills.

Your support in this learning process is vital. Please help by spending quality time with your child. Read stories and rhymes, choose all kinds of stories and question what is happening. Talk is important. Remember those letter sounds- can your child identify the sound and match it to an object? We are learning to blend those letters now to make small words. If you have any questions do not hesitate to ask.

Thank you for your co- operation.
