

20th March 2020

Dear Parents/Carers,

It is with real sadness that we are preparing to close the school for the majority of our children in these unprecedented times. We have been working hard to plan and provide activities so that your children can continue to learn at home. Today, your child will bring home a home learning pack. This will contain a pencil and an exercise book for them to record their home learning. To support maths and English further, online activities will be set using several online platforms e.g. Numbots, Espresso and ActiveLearn (Bug Club). The children have all been given up to date log in details and passwords for the following resources:

Bug Club

Numbots

Espresso

Phonics Play

Please do not feel bombarded with homework. These are suggestions to support your home schooling over the next few weeks. We understand that these are really difficult times and that the children may be in a variety of different settings over the coming weeks. However, keeping basic skills, daily learning and a routine wherever possible will help to settle the children and prepare them for their return to school.

If possible we would suggest daily reading, tricky words practise and number work within 20. We would hope that the children will read once a day, write one sentence and select a practical activity from the list provided. Joe Wicks will also be streaming live PE sessions for children at 9am everyday on his YouTube channel 'The Body Coach TV'.

We would love to see what the children are learning about at home and we welcome you to add any photographs/videos of what your child has been doing onto their tapestry profile.

Thank you for your support. Please continue to check our class webpage for any updates.

Stay safe, healthy and positive. We hope to see you soon.

*Miss Clayton and Miss Jones*
