

20th March 2020

Dear Parents/Carers,

It is with real sadness that we are preparing to close the school for the majority of our children in these unprecedented times. We have been working hard to plan and provide activities so that your children can continue to learn at home. Today, your child will bring home a home learning pack. This will contain a stationery pack, an exercise book for them to record their work, topic and science grids, spellings lists and spelling activities. Each child will also bring home CGP workbooks which have been used in class and booster classes. To support maths and English further, online activities will be set using several online platforms e.g. TT Rocks, MyMaths and ActiveLearn. The children have all been given up to date log in details and passwords for the following resources:

Bugclub

Spelling and Grammar Bug

AbacusMaths

Mymaths

TT Rocks

Please do not feel bombarded with homework. These are suggestions to support your home schooling over the next few weeks. We understand that these are really difficult times and that the children may be in a variety of different settings over the coming weeks. However, keeping basic skills, daily learning and a routine wherever possible will help to settle the children and prepare them for their return to school.

If possible we would suggest daily reading, spelling and times table practise. We would hope that the children complete an English and Maths task each day with a creative/topic/science task in the afternoon. Joe Wicks will also be streaming live PE sessions for children at 9am everyday on his Youtube channel 'The Body Coach TV'.

Thank you for your support. Please continue to check this page for any updates.

Stay safe, healthy and positive. We hope to see you soon.

Mr Dunbar and Miss Ross
